Hope all is well with everyone. The golf tournament was a blast with a great turn out! Looked like everyone was having fun. Myself I did not do so good but I survived. The dinner was great with really good food. The course was challenging and fun. Dan has a great speaker lined up for our May 10th meeting. The speaker is none other than Mr. Michael Collingwood from A-scan Laboratories, INC. He is speaking on "Why you will be lucky to pay \$6 per gallon for gas. Middle-East, China and America" We are on schedule with all are committees. Our past chairman has been doing a great job with the president's points it looks like we are right in line to receive the silver award. See everyone at the next meeting. I encourage all members to bring a friend to the next meeting and introduce some new faces to the great industry of NDT. There is always a new member to be had. Find them!

Each class will cost \$ 375 per person per class. Each single class is 16 hours each. The total for both classes is \$ 750.00.

After 16 years of “thinking about it”, we finally established a web site. Please visit us at sennetech.org. It needs a great deal of work, but at least we can now call it “a work in process!!!”

As you can see, we are spending a great deal of time this year training Level III's. We are out of them. Finally, you are taking our advice and upgrading your Level II's to accept more responsibility.

We will be on travel quite a bit through the balance of the year. We are concentrating on the courses noted above; pre- & post- Nadcap and attendance at Nadcap audits for most of the year.

We hope your year will see business improving. We look forward to seeing you at one or more of our classes.

Sincerely yours,

Dr. Stephen M. Senne
