

**The American Society for
Nondestructive Testing**

The Greater Los Angeles Section

2014-2015 Yearbook

NDT Training, Scheduled courses for January – June 2015
"When only the BEST is good enough"

*** TEST NDT can administer and proctor the IRRSP examination***

Phased Array Training

Level I and II UT PA courses to meet the SNT-TC-1A requirements

Introduction to Phased Array, (16 hours) \$1195
January 26 – 27, April 20 – 21, June 29 - 30

Ultrasonic Phased Array Level I (SNT-TC-1A 2011) (40 hours) \$1995
January 26 – 30, April 20 - 24

Ultrasonic Phased Array Level II (SNT-TC-1A 2011) (40 hours) \$1995
February 2 – 6, April 27 – May 1

Eddy Current Array Aero, (40 hours) \$2195
TBA

NDT Level I and II Courses

Magnetic Particle Level II SNT-TC-1A
(24 hours) \$845
January 5 – 7, March 2 – 4, June 1 - 3

Penetrant Level II SNT-TC-1A
(16 hours) \$695
January 8 – 9, March 5 – 6, June 4 - 5

Ultrasonic Testing Level I
(40 hours) \$1295
January 12 – 16, April 6 – 10, June 8 - 12

Ultrasonic Testing Level II
(40 hours) \$1295
January 19 – 23, April 13 – 17, June 15 - 19

Radiation Safety (IRRSP Preparation)
(40 hours) \$1295 (Approved by State of CA)
February 9 – 13, May 4 - 8

Radiography Testing Level I
(40 hours) \$1295
February 16 – 20, May 11 - 15

Radiography Testing Level II
(40 hours) \$1295
February 23 – 27, May 18 - 22

Radiographic Film Interpretation (40 hours) \$1295
May 26-30

Eddy Current Testing Level I (40 hours) \$1295
March 23 - 28

Eddy Current Testing Level II (40 hours) \$1295
March 30 – April 3

NDT Additional Training Courses

Please call for dates for the below courses

Magnetic Particle Level II NAS 410	(32 hours) \$1195
Penetrant Testing Level II NAS 410	(32 hours) \$1195
Ultrasonic Thickness Testing	(40 hours) \$1295
Visual Testing Level II	(32 hours) \$1195
Digital Radiography Testing	(40 hours) \$1295

NDT Level III Refresher Courses

Please call for dates for our Level III Refresher courses

Basic Level III – Includes text book package worth over \$300 (40 hours) \$1395
Eddy Current Level III (24 hours) \$995
Penetrant Level III (16 hours) \$795
Magnetic Particle Level III (16 hours) \$795
Radiography Level III (24 hours) \$995
Ultrasonic Level III (40 hours) \$1395

CHAIR'S MESSAGE

The time has finally come to pass that I have been selected as your chairman for the greater Los Angeles section of A.S.N.T. for the 2014 and 2015 year. All I can say is ... "wow it's about time"!

When I was asked to get involved in local meetings and join the board of directors; I thought ... "ya ok ". but I did not realize until now the door of opportunity that swung open by doing this or the satisfaction I would receive by getting involved. Thank you all that had inspired me to do so.

Looking back in the February 2002 edition of materials evaluation you will find my name. But this is meaningless without the support and commitment of all the other names (published and unpublished women and men) that make up the community we call A.S.N.T.

I will do my best once again to make all who work in this community proud of my tenure and live up to the responsibilities bestowed upon me and perform them to the expectations of all the women and men who have held this prestigious position before me including the entire membership at large.

I will end this message on a note of a challenge: for whom out there that is reading this message can you say what can I do or what difference can I really make? That's the kind of people we are looking for because I use to be one of those people until I got involved. Now if you want to get involved or you don't; I would like to hear from you. Give me a call @ 1(626) 372-6514 or e-mail @ dwsconsulting90061@gmail.com. What ever you do get involved because A.S.N.T. needs people who can.

Sincerely yours,

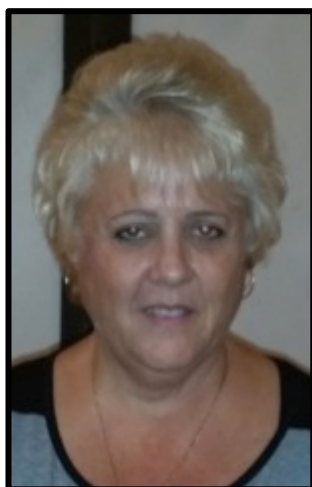

Duane W. Schultz

Chairman 2014/15
Greater Los Angeles Section
The American Society for Nondestructive Testing

of products in ALL major
disciplines.**

Products, Equipment, Service & Calibration

Ontario, CA-based MPM is an award-winning supplier, representing over 30 NDT manufacturers. In addition to being the largest distributor of X-ray film in the United States, we also inventory 1000's of other NDT products and equipment, including digital and computed radiography. In-stock products are shipped from our U.S.-based warehouses with delivery to most parts of the United States within 1 to 2 days business. Additionally, our well-trained calibration, equipment repair and preventative maintenance service team is well respected in the industry for their reliability, equipment knowledge, and service efficiency.

*Call us and discover why companies have been relying on MPM for over 40 years for **ALL** of their NDT needs.*

ASNT-GLAS CODE OF ETHICS

In spirit and in word, this Code of Ethics shall guide the actions of the members of the American Society for Nondestructive Testing. It is the duty of all members to conduct themselves in accordance with the following precepts:

1. To uphold at all times the reputation of the Society and the dignity of membership therein.
2. To pursue their professional discipline and activities in a spirit of fairness to all concerned — employer, employees, customers and competitors — consistent with the high ideals of personal honor and integrity.
3. To refrain from associating themselves with any enterprise that would use their names or that of

the Society in any manner countenancing misrepresentation.

4. To avoid damage directly or indirectly to the professional reputation, prospects or business of another member of the Society.
5. To advertise only in a professional manner, to avoid using improper or questionable methods of soliciting professional work and to decline any connection with improper patronage.
6. To inform clients or employers of any business affiliations, interests or connections which might influence their fair judgment.
7. To treat as confidential their knowledge of any business affairs or technical information of employers, clients or customers and to make no disclosure of such information without their express consent.
8. To accept financial or other compensation for a particular service from one source only, except with the full knowledge and consent of all interested parties.
9. To perform their work in the highest professional manner, protecting the life, safety and health of their associates and of the general public.
10. To contribute to the advancement of nondestructive testing by the interchange of information and experience with others, taking full advantage of the mediums provided by the Society — symposia, conventions and the press.
11. To encourage and provide opportunity for professional development and advancement of their employees or those under their supervision.
12. To consider their membership in the Society as affording a distinct opportunity to apply their special talents for the service of mankind.
13. To refrain from any statements or acts which constitute hostile behavior and any forms of intimidation or harassment of any kind by and between members of ASNT whether sexual, racial, ethnic or religious in origin.

* Policy O-3B; this Code was adopted in March 1964 and updated in January 1991 and March 1995.

GLOBAL & LOCAL SOLUTIONS

MAGNAFLUX has 80+ years of experience as a **global manufacturer** of magnetic particle and liquid penetrant inspection equipment, materials and accessory products.

Other product lines include aqueous cleaners certified for aerospace and general industrial cleaning, along with a complete line of ultrasonic couplants.

Visit our website at www.magnaflux.com or call Magnaflux Customer Service at **847-657-5300** or email cs@magnaflux.com.

Fellow GLASers,

Sadly, we just lost one of our longtime members, George Howard. Below is information regarding George's April 27 "Celebration of Life" and his obituary for ASNT from his stepson, Michael McGloin, (2005-06 Chair) and his widow, Kit. The Greater "City of Angels" Section of ASNT extends our deepest condolences to George's entire family. ASNT-GLAS is proud and glad he was a part of our family. He will be sorely missed but fondly remembered.

Sincerely,
Paul Cole Padilla
2013-14 Chair

George D. Howard was born in Washington State on September 2, 1933. He moved around a lot as a child and even spent time growing-up on a farm in Oregon. In 1951, George enlisted in the United States Army and was sent to the front lines in Korea. There he worked as a dental assistant in a M.A.S.H. type dental unit. In Korea, he X-Rayed patients and had the unfortunate task of identifying deceased soldiers by comparing dental records.

After he was discharged, he took a position at Norton Air Force Base working on airplane engines. From there, he went to The Southern California Gas Company to work as a grunt. Then he got hired by Rockwell as an X-Ray shooter being he had X-Ray experience. Within Rockwell, he transferred to Palmdale, California to work on the XB-70 project, and then to Seal Beach, California. He also worked on the Saturn V rocket in Georgia, as well as the vertical assembly building in Florida.

George came back to California and took a job with Aztec and then went to Boeing in Washington. Ultimately, George settled in Huntington Beach, California as a film rep for Gaf, and then finally AGFA. George retired in 2000 where he and his wife Kit moved into their motor home and traveled the country for the next nine years before moving to Downey, California.

George was an avid supporter of the local sections of ASNT and spearheaded the revival of the Arizona Section in Phoenix in the 1980's. George never went through the chairs of a local section because he felt that those positions were more suited for the inspectors and not him as a sales rep. George was also a proponent of goals. George was always encouraging people to establish and achieve goals in life, no matter how large or small.

George passed away on March 29, 2014 at the age of 80 from Pulmonary Fibrosis and COPD. George is survived by: his wife Kit, of 31 years; children: Susan, Patrick, Kelly, and Steven; step-children: Jeff and Michael McGloin; 10 grandchildren and 3 great-grandchildren. George was a loving husband, father, step-father, grandfather, and friend. George will be missed terribly by all who knew him.

A "Celebration of Life" was held in George's honor on April 27, 2014.

Tax Deductions: An income tax deduction may be allowed for educational expenses (including registration, travel and meals undertaken to maintain and improve professional skills—Treasury Regulation 1.162-5).

Proudly printed on 100% post-consumer waste recycled paper by union labor

ABOUT ASNT-GLAS

The Greater Los Angeles Section has been in existence since 1943, under the name of the Los Angeles Section. We received our charter in 1944.

Due to the enormous amount of aerospace work in Southern California from the 40's through the 80's, the Los Angeles section grew rapidly. So much so, that 2 new sections eventually formed to accommodate the vast region and widespread membership. The Orange County section started up in 1966 and served the membership of , well, Orange County until it's dissolution in 1976.

The California Valley/Gold Coast section started up in 1976 and lasted until it's dissolution in 1987.

In 1988, the Los Angeles Section became incorporated under the new name of ASNT-GLAS, Inc. (you guessed it, the Greater Los Angeles Section.) A couple of years later we achieved 501(c) (3) Non-Profit organization status, and the meager funds we raise to keep the section activities afloat, are now tax exempt.

The current Board of Directors of the GLAS would like to thank the many individuals that have donated their free time to this volunteer organization.

From Chairmen and Officers and Directors to Committee Chairpersons, the many individuals over the years have helped form the rich history that has helped shape the NDT community here in Los Angeles.
